

LOS RIOS COMMUNITY COLLEGE DISTRICT
Memorandum of Understanding
LRCFT

Background

The LRCFT expressed an interest to fund increasing the lab hour to lecture hour ratio from .75 to 1.00 to .80 to 1.00. The funding of this request is outlined in the multi-year funding plan in section A.2.13 of the July 1, 2017 to June 30, 2020 bargaining unit agreement.

Currently, for all Lab/Shop/Clinic Mode courses, every twenty-four (24) catalog hours assigned in a semester equals one (1) formula hour. The calculation is catalog hours divided by eighteen (18) multiplied by .75 equals formula hours

It is agreed:

Biology, Physics, Chemistry, Astronomy, Anthropology, Geography, Geology, Nursing, and Allied Health discipline labs will increase the lab hour to lecture hour ratio from .75 to 1.00 to .80 to 1.00 effective for the fall 2020 semester. Accumulated continuing proportionate share revenues of the LRCFT unit will fund the increase in the lab to lecture hour ratio. LRCFT's proportionate share will allocate \$687,600 during the 2019-20 fiscal year in continuing costs for the increase in the lab hour to lecture hour ratio. LRCFT's proportionate share of defined revenues will fund future costs related to the increase in the lab hour to lecture hour ratio.
